

## Papers published in Journals during April 99 to March 2000

1. Catalytic functionalities of TiO<sub>2</sub> based SiO<sub>2</sub>, Al<sub>2</sub>O<sub>3</sub>, ZrO<sub>2</sub> mixed oxide hydroprocessing catalysts  
Stud. Sur. Sci. Catal. 127, 397, 1999  
M S Rana, B N Srinivas, S K Maity, G M Dhar & T S R Prasada Rao
2. Effect of slat of the hydrophobicity parameters of nonionic surfactants  
Chem. Environ. Res. 8(1&2) 1999  
T Cberhati, E Forges, Gy Oros, K Kumar & H U Khan
3. Effect of polymers on wax properties  
A K Gupta & K M Agrawal  
Petroleum & Coal, 4.1, 103-104, 1999
4. Solublised waxes and their influence on the flow properties of LOBS  
Petroleum Science & Technology, 17(5&6) 491-501, 1999  
M Anwar, H U Khan, K M Agrawal & S P Nautiyal
5. Sulphur compounds in diesel fuels  
Hydrocarbon Technology 56-66, March 99  
V K Bhatia, Himmat Singh, Savita Kaul & T S R Prasada Rao
6. Studies on the oxidative behaviour of base oils and chromatographic fractions  
Fuel 78(11) Sept(1999) 1293-1302  
A Adhvaryu, Y K Sharma & I D Singh
7. Applications of quantitative NMR spectroscopy to oxidation kinetics of base oils using PDSC technique  
Energy & Guel, 13, 493 ( 1999)  
A Adhvaryu, JM Perez & I D Singh
8. A non hydroprocessing route to upgrade conventional oils into new generation base oils  
Preprints ACS Div. Pet. Chem. 44, 245, 1999  
P Sahai, G S Chaudhary, M Anwar, I D Singh, Himmat Singh & M O Garg
9. NMR studies of lube distillates for making quality base oils  
Preprints ACS Dvi. Pet. Chem 44, 257, 1999  
S K Sahoo, B K Sharma & I D Singh
10. Usefulness of NMR derived structure models for the study of additive response in mineral base oil  
Preprints ACS Div. Pet. Chem. 44, 270, 1999

A Adhvaryu, I D Singh and J M Perez

11. Spectroscopic characterization of solvent soluble fractions of petroleum vacuum residues  
Petroleum Science & Technology, 1999  
B K Sharma, O S Tyagi, M P S Aloopwan & S D Bhagat
12. Crystallinity and average carbon number of waxes by x-ray diffraction  
Petroleum Science & Technology, 18(1&2) 141-151, 2000  
A K Gupta & K M Agraswal
13. A laboratory technique for the evaluation of automotive gear oils of API GL-4 level  
Tribotest Journal, 6-1, September, 1999  
R P S Bisht & Sudhir Singhal
14. A new approach in identifying in very prominent polyaromatic hydrocarbons (PAHs) in petroleum fractions using second derivative synchronous excitation fluorescence spectroscopy  
Indian Journal of Pure & Applied Physics  
Swaminathan, C Santhamma, C V Ramasastry, G Viswanadham and Y L Murthy ( Andhra University ) & Pradeep Kumar (IIP)
15. Verification of major PAHs in petroleum fractions through using second derivative synchronous excitation fluorescence spectroscopy of corresponding synthetic mixtures – II  
Indian Journal of Pure & Applied Physics  
V Swaminathan, C Santhamma, C V Ramasastry, G Viswanandham and Y L Murthy ( Andhra University ) & Pradeep Kumar (IIP)
16. Alkylation of para-cresol with lower alcohols over on iron catalyst  
Res. In Chemical Intermediates 25 (5), 425-430, 1999  
H Grabowska, J Wrzyszc. S C Joshi
17. Indian Institute of Petroleum: Bringing technology to the market place  
T S R Prasada Rao and Shailendra Tripathi  
Current Science 76(8), 1091-1096, 1999
18. Characterisation and evaluation of ZrO<sub>2</sub> supported hydrotreating catalysts  
J Molecular Catalysis A: Chemical 153(1-2), 121-127, March 2000  
S K Maity, M S Rana, B N Srinivas, S K Bej, G Muralidhar & T S R Prasada Rao

19. Static and dynamic properties of block-copolymer solution in poor solvent  
I. A light scattering study on solutions in weakly-selective solvents  
T Azuma, O S Tyagi, T Nose  
Polymer Journal 32(2), 151-158, Jan 2000
  
20. Characterization of the basicity of modified MgO-catalysts  
P Thomasson, O S Tyagi & H Knozinger  
Applied Catalysis, A General, 181(1) 181-188, May 1999
