### Basic Skill Development Training on 'Analytical Chemistry, Tools and Techniques'

#### Introduction

With experienced and qualified staff and comprehensive state-of-the-art R&D facilities the institute maintains its leading position in conducting training programs for the personnel from refining, petrochemical, automotive, power and related user industry. More than 9000 personnel from India and abroad have been trained on different requirements.

As per the initiatives taken by the institute under 'CSIR-IIP Integrated Skill Development Training Programs' applications are invited from eligible **Uttarakhand state residents only** for training program on 'Analytical Chemistry, Tools and Techniques', sponsored by **Uttarakhand State Council for Science & Technology (UCOST)**.

Our Analytical Sciences Division is equipped with range of analytical instruments beside manpower having wide-ranging working experience and extensive knowledge base. The participants will acquire a broad working knowledge of various analytical testing/evaluation techniques.

#### Objectives & Scope

Training is aimed at providing in depth knowledge and hands on experience on various analytical techniques to those new to the R&D institute/industry or wish to develop their career further in the relevant QA/ QC area with more strengthened analytical approach.

#### After successful completion

With exposure to advanced analytical instrumental facilities backed by theoretical clarity, a person will be able to develop precise evaluation approach for research and development activities/quality compliances besides running routine analytical tests depending upon individual's ability and dedication in learning the skill.

#### Pre-requisites

No pre requisites beside educational qualification being M.Sc. (Chemistry)/M.Pharm  
**20 - 35** years of age.  
(Age/qualification relaxation as per Govt. of India Rules/discretion of Director, CSIR-IIP).

#### Who Should join

**Uttarakhand resident** having desire to excel in the area of R&D/ Quality Control OR wants to acquire broad knowledge of Analytical Science through exposure to instrumental testing and evaluation for competitive examinations.

### Salient features of the program

- Theory: Practical :: 30 : 70
- Interactive sessions for in-depth knowledge sharing.
- Evaluation of trainees will consist of both Theory & Practical component.
- Certificates will be awarded on successful completion of the training.
