Basic Skill Development Training on 'Current Trends in Library and Information Science'

Introduction

With experienced and qualified staff and comprehensive state-of-art R&D facilities the institute maintains its leading position in conducting training programs for the personnel from refining, petrochemical, automotive, power and related user industry. More than 8000 personnel from India and abroad have been trained on different requirements.

As per the initiatives taken by the institute for 'CSIR-IIP Integrated Skill Development Training Programs' applications are invited from eligible Indian nationals for the program on 'Current Trends in Library and Information Science'.

Our institute's library contains more than 40,000 documents which includes books, bound Volumes of periodicals, specification, reprints, standards and patents etc. Library is subscribing more than 70 scientific periodicals, databases such as Sci- finder, Web of Science and software like Grammarly etc. Library is fully automated and equipped with modern tools and techniques. Library is using LibSys software for information stores and retrievals, a separate database is also maintained in Koha (open source software). Our institute has its institutional repository on DSpace. Library is providing consultation, Reference, Reprographic, Inter library loan, documentation and current awareness services to its readers.

Objectives & Scope

Training is aimed at providing detailed introduction in the class room sessions covering theoretical aspects such as classification, cataloguing, library management to hands on practice on installation of Linux, installation of Open Source library software like KOHA, DSpace. Working of different modules like serial control, cataloguing, circulation, technical processing (classifying the documents by different schemes), documentation and uploading of multimedia files.
