

CSIR-INDIAN INSTITUTE OF PETROLEUM

(Council of Scientific & Industrial Research)

P.O. IIP Mohkampur, Haridwar Road,

Dehradun-248 005, Uttarakhand (India)

Website: www.iip.res.in

Basic Skill Development Training on 'Testing of Petroleum Products'

Introduction

With experienced and qualified staff and comprehensive state-of-the-art R&D facilities the institute maintains its leading position in conducting training programs for the personnel from refining industry, petrochemical industry, automotive sector, power plants and related user industry. More than 8000 personnel from India and abroad have been trained on different requirements.

As per the initiatives taken by the institute under CSIR-IIP Integrated Skill Development Training Programs' applications are invited from eligible **Uttarakhand state residents only** for training program on '**Testing of Petroleum Products**', sponsored by **Uttarakhand State Council for Science & Technology (UCOST)**.

Our Advanced Crude Research Centre (ACRC) is equipped with range of distillation units, numerous test measurement instruments and manpower having extensive working experience/rich knowledge base. The participants will have the opportunity to obtain a broad working knowledge of petroleum product testing and analysis.

Objectives & Scope

Detailed introduction to petroleum and petroleum product specifications, hands on experience on various analytical techniques / standard test methods for its evaluation.

Contents

- | | |
|--|---|
| <ul style="list-style-type: none">• Chemistry of crude oil• Composition and Classification• Evaluation for fuels/ lube /feedstock• Lab Distillations & Physico-chemical Test Procedures | <ul style="list-style-type: none">• Naphtha, Kerosene / ATF Specification and Test methods.• Gasoline and Diesel Fuel Specification and Test methods• Lube oil Specification and Test methods• Challenges in Petroleum Testing & Future trends |
|--|---|

After successful completion

On completion of the course, a person will be able to know about major characteristics of petroleum products and their significance related to product end use. The participants will acquire a good grasp of the relevant ASTM/IP test methods meant for fuels/lubricants evaluations for R&D activities /quality compliances by the refineries/ authorities, depending upon his ability and dedication in learning the skill.

Pre-requisites

No pre-requisites besides educational qualification being M.Sc. Chemistry.

20 - 35 years of age.

(Age/qualification relaxation as per Govt. of India Rules/discretion of Director, CSIR-IIP).

Who Should join

Any person who wish to develop career in the area of testing and evaluation of petroleum products, an integral part of various petroleum R&D activities/ refinery QCs.

Salient features of the program

- Theory: Practical :: 30 : 70
- Interactive sessions for in-depth knowledge sharing.
- Evaluation of trainees will consist of both Theory & Practical component.
- Certificates /Skill cards will be awarded on successful completion of the training.

How to Apply & Selection

- Candidates have to apply as per the application format in the given link below along with one set of self-attested documents (Hard copy of application).
- Selection of the candidates will be based on merit & interview (if required) to meet suitability for the course.
- All documents in original to be shown at the time of interview / enrolment.
